

Work with us!

onedotzero recruitment – cross-disciplinary senior designer (full time)

Date: January 2018

About onedotzero:

onedotzero is an independent digital design agency creating transformative experiences and culturally significant events that merge arts, entertainment and technology to thrilling effect. Collaboration is at the heart of our process and for two decades we have amassed an unrivalled network of artists, creatives, technologists and production partners with whom we have worked on our own projects in addition to events and concepts for agencies, brands and cultural organisations.

Job description:

We are looking for an exceptional cross-disciplinary senior designer to join our small London team. The right person will be able to think about the entire project, look at the physical environment and create entire experiences that are immersive. The right person will have energy in abundance and a passion for culture with a digital accent. You need to have a minimum of 5-7 years experience working in a design studio or agency environment, be able to think in 2d and 3d and possess a flexible skillset that can be applied across a variety of projects including events, exhibitions, motion graphic, interactive and digital design projects for internationally recognized brands and organisations.

Working closely with onedotzero's creative director, producers, freelance talent and clients, you will be involved in projects from conception to delivery, spanning creative thinking and brainstorming, pitching, concept sketching and visualisation for client presentations, environment rendering, prototyping and making, project documentation, final deliverables and more.

As such you need to be a bit of a design generalist who is comfortable working in 2d and 3d across graphic design, user interface design, video filming and editing, photography, animation, coding, electronics and basic 3d modeling. Whilst you don't have to be excellent in all of these categories, a passion for learning new skills is essential.

Comfortable working under pressure, you need to be extremely organised and able to deliver high-quality work whilst working to tight deadlines. Due to the nature of our projects, evening and weekend work will be required from time to time.

It is essential that applicants have the ability to work across all aspects of the creative process:

Creative concept and strategy

Managing the design and production team with all creative elements

Contribute to new business  
Deliver and manage in pitches  
Visualise the creative concept  
Understand the production process  
Work within the realms of possibility while still creating unique experiences  
Create storyboards  
Be able to engage with clients about creative concepts  
Conduct extensive research  
Prototype and understand available software and hardware packages

Desired skill sets:

2d – Illustrator, Photoshop, InDesign, keynote  
3d – Rhino, Sketch up, Vray  
Documentation – photography, filming, editing [premiere]  
Simple animation – after effects  
Hand sketches and quick visualising skills  
Research skills for idea developments and project materials  
A keen interest in digital culture and an awareness of current trends  
Coding is a plus but not essential

Apply now!

If you are looking for a challenge in a fast-paced studio environment where you could have a big impact then we want to hear from you. This is a fantastic opportunity to work with some of the best creators across the digital arts cultural landscape with work on a global stage interested. Have the required experience and desire? Want to be part of our future?

Please send your CV, a covering letter and a description of the projects, which you feel, are most relevant to our company and what your role was on that project:
